

Questions you should ask before hiring a driving school

- How important is it to me that the instructions given create a good solid foundation from which my child can base their future driving skills on or do I just want the school to drive him or her around for 6 hours to meet a requirement?
- When speaking with a school, did they describe to me about the state mandated curriculum that is taught during the 6 hours of training?
- Is the school fully licensed by the Motor Vehicle Commission for the State of New Jersey? You can check this by following this link:

<http://www.state.nj.us/mvc/Licenses/LicensedDrivingSchools.htm>
- Am I allowed to join the instructor to experience what my child has learned, how he or she is handling the vehicle and how the instructor is with respect to instruction and demeanor?
- What kind of vehicle(s) does the school use?
- Are the vehicles professionally cleaned and maintained on a regular basis?
- Is getting quality instruction & equipment worth the extra few dollars?

Remember this is a precious package you are entrusting to a company.

You only want the best.
